## **From the desk of Chairman**

Change is slow. Change is deliberate. Change is not easy.

I take pride and feel privileged to bring out the annual report for DMF Keonjhar for the financial year 2015-16.

District Mineral Foundation is a wonderful opportunity to improve the mining affected areas and life of the people living in the affected areas. DMF has been aligned to the Pradhan MantriKhanijKalyanYojana (hereafter PMKKKY) that was launched in September 2015 to use the DMF funds, for various developmental and welfare programmes in mining affected areas of the nation.

DMF has received a contribution of Rs.141.84 crores in the year 2015-16. Our district is determined to take full advantage of the opportunity which the fund has presented to us. Though we couldn't take up any projects in this financial year, we look forward to utilize the amount for reaching out to all the section of the society who have been affected by mining, both directly and indirectly.

Some of our core areas of intervention will be drinking water and sanitation, environment preservation and pollution control, healthcare, education, welfare of women and children, welfare of aged and disabled people, skill development and housing.

Presently there are 233 villages spreading over five blocks of Keonjhar district which has been declared as mining affected areas. These villages will be served on a priority basis.

## Section 2

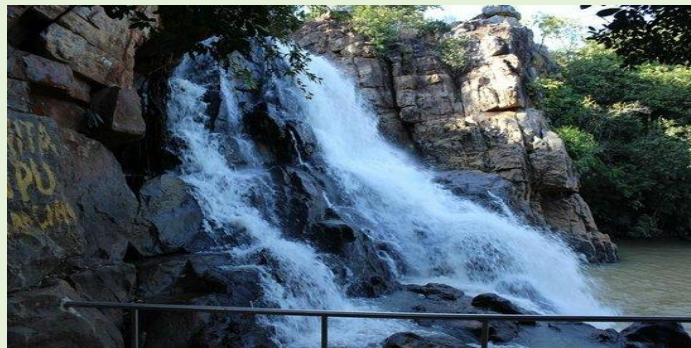

### Mission and Vision

#### VISION

To ensure the well-being of the poorest of the poor in the mining affected areas of Keonjhar long after the mining operations have ceased.

#### MISSION

- In the short term, alleviate the sufferings of the mining affected tribal populace of Keonjhar by ensuring basic services needed for sustenance.
- In the long term, secure the lives and the livelihoods of the mining affected tribal populace of Keonjhar through sustainable development that is independent of mining.

### History of DMF

**K**eonjhar district, endowed with rich mineral deposits, occupies a prominent place in the mineral resource map of Odisha. The district fulfils the domestic and overseas demand with huge reserves of high-grade iron ore & manganese along with other minerals such as chromites, limestone, dolomite, nickel, granite etc. The entire forest range of Keonjhar is dotted with several surface iron ore & manganese ore mines of varying production capacities.

Some of major mining agencies operating in the district are Essel Mining and Industries Ltd., Orissa Mining Corporation Ltd., Tata Iron and Steel Corporation Ltd. Etc. While the district's mining sector contributes significantly to the state economy, however, there exists a discrepancy between the natural abundance of minerals found in the district and a corresponding development of the local communities.

Historically the mineral rich revenue was distributed equitably across the state and there was no special advantage to the district or the communities owing to the mines around it. With the advent of the District Mineral Foundation, this historical distribution is going to have a significant shift, especially leaning towards the district. 62% of Keonjhar's population still lives below the poverty line, with the worst sufferers being the marginalized groups of forest dwelling tribal communities.

Keonjhar is home to a sizeable tribal population, including, Juangs, a Particularly Vulnerable Tribal Group who are totally dependent on forests and agriculture for their livelihoods and survival. As per the Census 2011, Scheduled Tribes constitutes 44.5% of district's population with 11.62% as Scheduled Castes. The district can

now focus on these PVTGs and other tribal populations in a holistic manner with focused interventions in almost all priority sectors including health, drinking water and tacking environmental concerns during the process.

The Mine and Minerals Development and Regulation (Amendment) Act 2015, has created provisions for sharing the mineral wealth with communities in the mining areas. The Act (Section 98) provides for the establishment of the District Mineral Foundation (DMF) for the benefit of communities and areas in districts directly or indirectly affected by mining related operations. The provision of District Mineral Foundation opens a window of opportunity to uplift the socioeconomic status of mining-affected communities. As per various estimates, a total of 2555 million tonnes of iron ore is available as reserves in Keonjhar district. At the current rate of extraction of 55 million tonnes per year, the reserves will last for another 60 years. However, experts predict that as and when the global economy pulls itself out of the current slowdown, the rate of extraction will go upto 140 million tonnes per year, leading to exhaustion of the entire iron ore reserves of Keonjhar in a mere 23 years.

Considering that the DMF in Keonjhar is largely limited to the availability of iron ore in the district, it is critical to recognize that its lifespan is finite and could be limited to a few decades only. Calculating at the rate of Rs 500 Cr per annum, the total funds that will accrue under DMF Keonjhar over its lifespan is expected to be around Rs 25,000 Cr. This calls for a long term vision in planning and execution. In accordance with notification No. 3286/P, dated 3rd March, 2016 and in pursuance of Sub-Section (1) of Section 9B of the Mines and Minerals (Development and Regulation) Act, 1957 read with rule 4 of the Odisha District Mineral Foundation Rules, 2015 and Union Government Order No-16/7/2015-M.VI (part) dated 16th September 2015 of Ministry of Mines, District Mineral Foundation came into existence with effect from the 12th day of January, 2015. In

accordance with the Notification No.1501/2015 of the Steel & Mines Department, Government of Odisha, the functioning of the District Mineral Foundation, Keonjhar is regulated by the Odisha District Mineral Foundation (Amendment) Rules, 2015.

The District Mineral Foundation, Keonjhar has been established in the form of a non-profit Trust that mainly aims at providing drinking water supply, environment preservation and pollution control, health care, facilities, education, welfare of women and children, welfare of the aged and disabled people, skill development, sanitation and housing to the families and people directly affected by mining related operations and aforesaid facilities comes under the priority sectors. Special provisions are also these for scheduled areas under for utilization of funds under as provided under art-244 read with Scheduled-V and VI of the Constitution of India that relates to administration of Scheduled Areas and Tribal Areas and provisions of the Panchayats (Extension to Scheduled Areas) Act 1996 and the Scheduled tribes and other traditional forest Dwellers (Recognition of forest Rights) Act,2006

### **Basis of Funding into DMF Account**

Applicability for collection of DMF Fund in case or non-coal mineral is with effect from 12<sup>th</sup> Jan, 2015 @ 30% of the royalty in respect of existing mining leases and @ 10% of royalty in respect of new mining granted after 12.01.2015 before issue of transit permit for dispatch of mineral for the mines. Accordingly, a joint account has been opened in the name & style of DMF, Keonjhar having SB A/C No-540010510002549 & IFSC code No-BKID0005400 in Bank of India, Main Branch, a Scheduled Bank.

### Projects/Activities of the trust

The fund flow into the DMF began in the month of February, 2016. The DMF in its first trust board meeting discussed upon several sectors in which projects should be initiated. The Trust in its one decision, unanimously opted for construction of a medical college. Apart from this, it was also decided to prepare the proposals majorly in the areas of drinking water, health, education, irrigation etc.

During the FY 2015-16, no projects were initiated.

### **Convergence and sustainability**

A project can be termed as effective and efficient in the current setup, only when they are converged with the existing fund flow and planned keeping in mind their sustainability. Creation of a parallel structure will not only lead to duplication of work but also loss of public exchequers hard earned money.

UnderDMF, the district has strategized to complement the existing government structure instead of creating a parallel one. The district aims to utilize DMF funds as a catalyst for the implementation of the government run schemes which will lead to development of the district.

#### AUDITORS' REPORT

We have audited the attached Balance sheet of DISTRICT MINERAL FOUNDATION KEONJHAR, OFFICE OF THE COLLECTOR AND DISTRICT MAGISTRATE, KEONJHAR, ODISHA-758001, as at 31<sup>st</sup> march, 2016 and also the Income & Expenditure accounts for the year ended on that date annexed thereto. The preparation of financial statements are the responsibility of the Chief Executive DMF, KEONJHAR. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in India. Those standards required that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believed that our audit provides a reasonable basis for our opinion.

We have obtained all information and explanations which to the best of our knowledge and believe were necessary for the purpose of the audit. Subject to our observation stated above & notes on account, in our opinion, to the best of our information and according to the explanations given to us, the said accounts give a true and fair view.
